## **FXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or
additions be unacceptable to applicant, an amendment may be filed as provided by
37 CFR 1.312. To ensure consideration of such an amendment, it MUST be
submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew D. Gathy on 11/04/2003.

The application has been amended as follows:

The claims:

Cancel claims 6, 7, 9, 11-27 and 29.

Claim 30: line 3, delete "the material" and insert --the non-metallic open cell foam substrate--.

## REASONS FOR ALLOWANCE

 The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: Of the references of record, the most pertinent is Lemelson (4,960,643).

Lemelson teaches a composite material comprising a core element of graphite or ceramic filaments and a synthetic diamond coated on the core element by plasma arc deposition (column 9, lines 15-30). Likewise, the diamond is inherently fully coalesced. Lemelson teaches the core element having a porosity sufficient to permit the flow of fluids in at least on direction through the core element (column 10, lines 18-25). Lemelson teaches more than one layer of synthetic

diamond being coated on the surface of the core element (column 10, lines 10-15).

However, Lemelson fails to disclose the core element is a foam substrate as set forth in the claims.

Accordingly, since the prior art fails to teach or suggest such an article as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai Vo whose telephone number is (703) 605-4426. The examiner can normally be reached on M,T,Th, F, 8:30-6:00 and on alternating Wednesdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (703) 308-2414. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
